*Ms. Norma McCorvey*

*Former Jane Roe of Roe vs. Wade*

Representative  
300 SW 10th, Docking, 7th Floor  
Topeka, KS 66612  
March 26, 2007

Dear Representative \_\_\_\_\_,

Hello, my name is Norma McCorvey. Perhaps you've heard of me.

It was my Supreme Court case, *Roe v. Wade*, that sentenced tens of millions of innocent babies to die by abortion. (I have repented and given my life to the Lord.)

Now I work to tell people that abortion is a horrible crime against humanity—at ANY stage in a woman's pregnancy. But the most abhorrent abortions of all are LATE-TERM abortions, such as those performed by **Dr. George R. Tiller** of Wichita.

Dr. Tiller performs abortions on babies up to 37 weeks—past the point when most babies are born. And, to justify his crimes, he claims the women are “depressed” or have “anxiety disorders”—two conditions that are not valid reasons to have late-term abortions, according to Kansas law **65-6703**.

Dr. Tiller is now facing **30 criminal charges** related to the commission of illegal late-term abortions, properly filed by your former Attorney General, Phill Kline. However, due to Dr. Tiller's political connections, the charges were *improperly* dismissed.

But Dr. Tiller is not off the hook. You and your colleagues in the Kansas Legislature have the legal authority to force Attorney General Paul Morrison to prosecute Dr. Tiller on those 30 criminal counts.

As the woman who helped make abortion “legal” in America, I urge you to do everything in your power to stop one of the worst abortionists in America. George Tiller MUST be punished for the crimes he has committed—and you can help make that happen.

**Please vote to enforce KSA 75-702**, which requires the Attorney General to appear on behalf of the state and “prosecute or defend, in any other court or before any officer, in any cause or matter, civil or criminal, in which this state may be a party or interested.”

The fine reputation of the State of Kansas is at stake here.

Sincerely yours in Christ,

  
Norma McCorvey
