

Physicians do not conduct elective abortions at Wesley Medical Center.

Leroy Carhart is not on staff at Wesley nor has he requested privileges to practice here. Any physician can start a clinic practice without hospital privileges.

Wesley does not currently have, nor will we have transfer agreements with abortion clinics. Wesley never had a transfer agreement with Dr. George Tiller.

Under Federal Emergency Medical Treatment and Active Labor Act (EMTALA), all Emergency departments are required to screen and treat patients that arrive at the hospital with an emergency condition. Wesley treats over 70,000 people yearly in our ER. Our Women's hospital assists in delivering over 6,000 babies every year. We are proud of our role in supporting life.
